

Caterpillar to Perkins Engine Model Cross Reference Interchange

The AERA Technical Committee offers the following information on Caterpillar to Perkins engine model cross reference interchange. It is important to note that these engine designations are owned in part by the same corporation.

Use the table below to help determine the common engine model names for each company. Although different part numbers exist for the two companies and Caterpillar engines 210hp and smaller are Perkins engines and Perkins uses Caterpillar engines for 210hp and above.

While the above statements are accurate, it should also be assumed that not all Caterpillar engine models will relate to all Perkins models and conversely as well. Each manufacturer may have specific customer needs they cater too.

Caterpillar Engine Model Yellow	Perkins Engine Model Black
